Continued Progress

The thriftiness of the community and the gradual financial growth of local investors are shown by the report of the Tryon Federal Savings & Loan Association published in today's issue of the Bulletin. In January of this year the total resources of this institution were listed at \$160,000. In February \$161,000; March \$167,000; and today's report for April it is \$183,712.71. These assets are all protected by Federal insurance up to 58,000 for each investor. The savings are used entirely to help those who want to own their own homes and also to guarantee a safe investment with the highest earning power for those people desiring to save. F. P. Bacon is president of the Tryon Federal Savings & Loan Association. W. S. Green is vice-president. M. R. McCown, secretary-treasurer, Julian B. Hester and Walter C. Hill, directors.
