

Paying 4 Per Cent

In the attractive advertisement of the Tryon Federal Savings & Loan Association in this issue of the Bulletin are the words "and current earnings of 3 per cent." The plate for this ad was made by a popular engraver who has done lots of work for other savings & loan associations that pay only 3 per cent. The Tryon Federal Savings & Loan Association has been fortunate in doing a lot more business than the average association and has consequently earned more money. The increased profits have been passed on to the investors who have received 4 per cent on their investments instead of the 3 per cent usually paid by others.

Mrs. Henry Bray has returned home after a visit in Chattanooga, Tenn., where her granddaughter, Miss Anne Lindsay, daughter of Dr. and Mrs. Edwin Lindsey was graduated with honors from the Girls Preparatory school. Miss Lindsey will enter Duke University in the fall.

Folks seeing Saluda from the railroad as they pass through probably do not realize how many very beautiful homes there are here. Stephens Hall, lately purchased and restored by Mr. Woods of Greenville, S. C., and the Lucas place, adjoining, are among those lately made lovely. Their fine lawns and flower beds are specially attractive just now.

THE BULLETIN \$1.50 A year.

Special for Friday and Saturday
