

REAL HORSE

If you want to see a real team of Percheron mares take a look at the ones owned by W. G. Eger-ton of Mill Spring. Notice the compact strong conformation of the mares and how smooth, straight, strong legs are placed under the four corners of the body.

There are a number of other good mares in the country. Most of these are being bred to a fine Percheron stallion, owned by Dr. W. S. Green or to a nice regis-tered jack owned by Lt. Morrow at Landrum. Polk county is definitely on the road to better workstock and at a great money.

Mrs. Frederick P. Bowes is re-cuperating at St. Luke's hospital. Miss Ann Fowler of Spatanburg will spend the weekend with Miss Cora Dee Henderson of Landrum.

Ralph C. Erskine, Jr., of New York is making an extended visit with Mr. and Mrs. Ralph C. Erskine, Sr., at Pacolet Plantation.

CHANGE OTTOO

Conditions for profitable live-stock raising in the South are changing for the better, partly be-cause of more effective control of animals diseases and parasites.

PEARS (Kieffer) For Sale at \$1.50 per bushel. Apply to Dr. Louis Fuldner.—Adv. tf.
