CURB REPORTER

Another visit to Saluda Apple Country this time to Albert Salley's "Apple Valley" where I saw some of the prettiest apples ever grown and believe it or not one tree had apple blossoms and apples on the same limb. Mr. Salley said that he thought this freak of nature in that particular tree was the result of spraying. His orchard is in fine shape and the fruit excellent in quality. Some of the trees are so heavily laden with apples that props had to be put under the limbs to keep them from breaking. While there a telegram came for a big order of apples to be sent to Orangeburg, S. C. Tryonites should visit this section. It is beautiful, and Mrs. Salley has some beautiful flowers. One particular shrub was brought from the nearby mountainside and is officially called *Euonymus Americanus* if that means anything to you. . . Reception for Tryon school teachers will be held on Thursday afternoon from 4 to 5:30 and all the adults of the community are invited to meet the teachers and enjoy a social visit at Sunnysdale Log Cabin. . . . Bulletins leaving for college today go to Sara Elliott at Brevard college, Virginia Egerton at Woman's College U. N. C., Greensboro, and to George Aid at University of North Carolina, Chapel Hill. . . .
