

# FRIGIDAIRE RANGES AND REFRIGERATORS A V A N T E L E C T R I C Company

The diplomats may write treaties which are turned to scraps of paper. The nation may talk peace and prepare for war. Dictatorship may win a puny victory, and Democracy may seem to be in retreat. The rich dream of collective security may be a wreck tonight—as new frontiers are born of hate and force and intolerance . . . . But, all over America tonight are boys and men whose lives are consecrated to compassion and tolerance and mercy, and who do live by laws which are sacred. I am proud to raise my hand tonight in salute to Dr. West—to his fellow workers—to Scouts all over America, who have taken a pledge and whose lives are consecrated to keeping it—even when lights of freedom burn low—even when marching men drown out all voices of hope and love and tolerance . . . .—Boy Scout News.
