Lake Lure, Chimney Rock Area Described

Asheville.—Scenic pictures of the Chimney Rock-Lake Lure section were shown and interesting facts concerning their history were related at the junior chamber of commerce information school Friday night at David Millard junior high school.

Norman A. Greig, manager of the Chimney Rock company, spoke of the section's history, and colored slides were shown by Dr. James M. Washburn, Mayor of Lake Lure. Dr. Washburn also commented on the slides.

Dr. and Mrs. L. B. Morse were among those attending the session. Dr. Morse, one of the developers of Chimney Rock as a scenic attraction, made a few remarks concerning the area. He said this was the first time he had been out of bed for three years, but that he could not resist the opportunity to attend the school.

Mr. Greig traced the section's history from the time DeSoto and his party came through the gorge until the present day. He related a number of legends concerning the area and told of the lost colony, originally composed of 20 families and now dwindled to one, which lived behind the mountain and had practically no contact with the outside world.

Dr. Washburn said on the recent mayors' tour of Florida he heard a great deal about beautiful Florida sunsets, but that he had never seen any which would rival those of Western North Carolina.—Asheville Citizen.
