Dr. Lincoln will deal with such questions as What is the possibility of perfecting humanity? Is Thomas Hardy right in "The Dynasts" in stating that human history runs its course to nothingness at last? Is there an inevitable law of progress, or is progress conditional? Does God seem to have a purpose for the race as a whole? What is the significance of Christ in the evolution of the race? What part does the church have in the attempt to perfect humanity? Do psycho-analysts and psycho-therapists do the work which the church should do and could do better? Wherein does the hope of the constant improvement of humanity lie? Everyone is invited.
