Electric equipment for the farm such as brooders, water heaters, poultry warmers, soil heating equipment, hammer mills, fly electrocutors and other farm electrical appliances will be on display at the Duke Power Company office on Friday and Saturday of this week. Manager K. A. Bowen says "all farmers and anyone interested in modern farm equipment are invited to drop in and see these new instruments."

## Cui Bono?

Oh! women! women!—Mothers and wives,

Where are our "woman's rights"?  
We write and lecture and talk and bear—

While the whole world hates and fights!

We go on furnishing sons, to fall in their fairest years of youth.  
We pray while countries are cursed with war

With never a hope of ruth!  
Where are the women of dauntless deeds—

The daughters of France, of old?  
One slew a tyrant and gave her life:

One led as a warrior bold.  
Now both are memories great—and rare:

They gave ALL they had, to give,  
But war still ravages through the lands—

While the modern tyrants live!

The Maid of Orleans.  
Charlotte Corday.
