Helper Engineer Dies Suddenly

F. C. "Pap" Underwood, age about 60, engineer on the big Helper engine that helps to push trains up the mountain from Melrose to Saluda, died suddenly about 1:30 this afternoon while his engine was pushing a freight train up the grade. Saluda City Clerk Baty Hall stated this afternoon that an inquest had been called and that Coroner Dr. John Z. Preston of Tryon and Dr. E. M. Salley of Hendersonville would be present. Mr. Underwood's headquarters were in Asheville where he is survived by two children. He had been on the Asheville division for many years and came here originally from Florida. The Saluda grade is the steepest east of the Rocky mountains.

A BIT OF NORWAY AT ROTARY FRIDAY

Samuel A. Bingham, who visited Norway and other Scandinavian countries several years ago, made motion pictures of the places of interest. That country now is at war, and Mr. Bingham will show the pictures at the meeting of the Rotary club on Friday at 1 p. m. The program will be in charge of B. L. Ballenger.

GARDEN CLUB NOTICE

The Garden Club issues this invitation to all its members to come to Pearson's Falls on Wednesday, May 8th, bringing along their own picnic lunches and their friends. There will be no admission charge to the picnickers on that day.—MH

CURB REPORTER
