## Spartanburg Golfers Play Tryon Team Thursday

The Spartanburg Country Club team of the Piedmont Golf Association will come to Tryon on Thursday afternoon for a tournament with the Tryon Country Club team of the same association.

## Noted Lecturer Guest At Oak Hall Hotel

Mrs. Elizabeth von Hesse, author, lecturer, former concert singer, and voice teacher for Mrs. Franklin Roosevelt, is spending the summer at Oak Hall Hotel.

Mrs. von Hesse, who is here for a rest is a very charming woman and she has lectured all over the United States teaching others to express their charm and personality in their voices. The New York World-Telegram calls her courses "Personality and Power Through Effective Speech." She spent 28 years studying to get her own system of helping others to help themselves. Her most famous pupil, Mrs. Eleanor Roosevelt, is an example of what can be done with timid people who have tremendous possibilities bottled up within themselves. Mrs. von Hesse has a pleasing technique that releases this personality through speech. The timid, wall-flower blossoms into a hostess of poise and assurance who knows how to walk and to talk and not be afraid; a personality that radiates friendliness to others, and one who enjoys life with greater enthusiasm and satisfaction.

Property damage in 1939 motor vehicle accidents totaled \$750,000,000.

## Safety Publicity Man Visited Tryon Tuesday

Keith Saunders, son of the late W. O. Saunders of Elizabeth City, noted newspaper and magazine writer, was a caller at the Bulletin office on Tuesday. Mr. Saunders is publicity director for the State Highway Safety program which is endeavoring to reduce the number of deaths and injuries caused by motor accidents in North Carolina. Mr. Saunders states that last year there were 943 people killed and 7,190 injured in motor accidents in North Carolina. He states that if a dreaded disease had taken that many lives and injured that many people the whole state would be up in arms to do something about it. As it is so many motorists seem unconcerned about the affair. His job is to try to awaken the people of the state to this menace which is doing more than disease or war to kill our people. He believes that the study of safety should be a requirements of every school in the nation and that there should be periodic inspection of automobiles and of drivers in order to further insure greater safety to the public in general.
