CURB REPORTER

Do you like to hear yourself talk? The Avant Electric Co., has a recording machine which will record your own voice or that of any members of your family. In that way you can have a record of the voices of your children just as they sound today full of laughter and the enjoyment of life. Then when they are away you can bring back the sound of their voices years after they have gone to school or moved away. And that isn't all; if they play the violin or piano you can have a recording of that or of anything you hear over the radio. It is really a remarkable machine and has many possibilities for service and entertainment . . . Tom Costa says his glass hot house on Trade street is open to any of the ladies who need sun baths. During the coming winter they can sit in the aisles of the house among the beautiful flowers and watch the traffic go by . . . Reading about the church being decorated with Southern smilax for the wedding tonight reminds me of my boyhood days in southeast Alabama when boys gathered smilax, holly, mistletoe and Spanish moss from the big trees along the banks of the Chattahoochee River . . . Tryon's high school football team is getting in practice for the Welcome school football team of Greenville which comes to Harmon Field on Friday at 3:30.
