## Attention Polk County Committee for Defense

The Polk County Committee to Defend America by Aiding the Allies is asked to stand by for service.

The president, it is understood, has a plan to propose as soon as Congress meets next week whereby defense will be speeded up and help given to Britain more directly.

It is the duty of all good citizens to respond at once and give voice to their approval or opinions. Delays are dangerous. We can in this way answer the accusations of those who say that Democracy cannot work with speed and efficiency. This is the way to MAKE IT WORK.

No attention need be paid to the new organizations springing up in the west, here and there, crying "keep us out of war." The White Committee was organized for this very purpose, and so far its policies have proved to be sound. The "opposition" seems to have no purpose except to attack the White Committee and no plan except to urge Congress to speed up defense.

By New Year's Day it is hoped that we will all wake up to find we are on the same side of the argument! Then, one GOOD RESOLUTION and we are set.—  
E. G. C.

A public dance with an orchestra for the music at Sunnydale, and a private dance at the Country club will be features of entertainment for the young people on Friday night.

## Tryon Tags On Sale

If you would like to have an auto tag with TRYON, N. C. on it you can get it now at the Town Office according to Town Manager C. H. Helms. All car owners living in the city limits have to purchase one but all other civic minded citizens may have one, too, just by paying only \$1. These tags help to furnish revenue for money to keep the streets repaired and as out of town cars use the streets they get actual benefit as well as having a nice tag to help identify their car and advertise their community when traveling.

## Dividends Increase For T. F. S. & L. Investors

The Tryon Federal Savings & Loan Association will pay its 11th consecutive dividend on December 31st, according to an advertisement in today's Tryon Daily Bulletin. The report shows that the association has grown tremendously and constantly ever since its organization in 1935. Today it has assets of nearly a third of a million dollars invested in homes in this section. The association with its \$5,000 insurance protection for each deposit has been a boon to investors desiring a safe place for their money at the best rate of interest. Likewise it has been a good thing for those progressive citizens desiring a home but lacking adequate capital to finance the project. The investors, the builders, workers, supply houses and home owners have all shared in this progress. The offi-
