Tryon Garden Club to Be On Radio Program, May 5th

Announcement was made at the regular meeting of the Tryon Garden Club Wednesday afternoon that the Club had been invited to participate in the series of programs which will be broadcast during the next month over stat on WWNC, Asheville, and suitable features of the local club's work are now being prepared for broadcasting Wednesday afternoon, March 5, from 3 to 3:15 o'clock.

The Garden Club meeting was held at the home of Mrs. Dudley C. Smith, with Mrs. Smith and Mrs. Walter C. Hill as co-hostesses.

Several interesting and important reports were heard. Miss Katharine Hamilton, reporting from the Conservation Committee in the absence of Mrs. C. C. Curtis, the chairman, stated that progress was being made in the movement to restrict the removal of laurel roots from National Forest areas, now being taken out in considerable quantities for the tobacco pipe industry.

Miss Susan Harper, who has charge of conservation work in the public schools, reported in detail on the progress of her work with pupils and teachers in the Tryon schools. Miss Harper suggested that the garden club should donate to the Tryon public school library a copy of "Wild Flowers" by Homer D. House, and the purchase and donation of this book was at once made possible by contributions from various members.

Mrs. John Preston, chairman for the Flower Show, reported on plans for the spring show.
