Health Examinations

Dr. Herbert Hudgins announces that the Health Department will be holding pre-school clinics at the various schools during the coming weeks. Parents with children who are to attend school next year will be notified thru the school of their community as to the exact day and time for their clinic.

This is a service offered to all the pre-school children and parents are urged to come and bring their children. It will include an examination of the child with suggestions as to correction of defects and immunization against diphtheria and smallpox. It is much better that these things be attended to before the child goes to school. There are many children who would achieve a much more successful school record were their health better.

Columbus, Sunny View, Tryon and Saluda In Games Tonight
