

POLITICS

Spartanburg has a new mayor, Jennings L. Thompson, who defeated Mayor T. W. Woodworth. Maury Pearson, the singer who has appeared in Tryon a number of times was elected councilman.

In Rutherfordton, M. Georgion, former Polk County citizen and former manager of the Coxe Green River plantation, lost out in his race for mayor. The winner was B. B. Waldrop. Mr. Georgion is a native of France and spent much of his life in the banking business in Turkey before coming to America.

In Monday's Bulletin it was reported that there was no opposition in the Saluda mayor's race, but at last minute Herbert Pace changed his candidacy from councilman to mayor and the voters will choose between Roy T. Baisden and Mr. Pace.

In Tryon many lovers of civic beauty are interested in candidates who will have a street cleaner pick up trash on the sidewalks and streets of the residential sections and who will put in needed trash receptacles for those thoughtful citizens who don't want to throw paper on the streets and yet don't want to carry the stuff around in their pockets until they find a convenient place. Tryon is one of the best towns in the country and one of the best governed and operated, but there is room for a little improvement to make it still better; in the matter of cleaner streets, according to a reporter of the Bulletin. He says just plain civic pride, and love for a town should prompt a policeman, city worker, or ordinary citizen to pick up a stray piece of paper, cigarette wrapper, candy wrapper and the hundreds of unsightly things seen on Tryon's beautiful streets. But they have to have a container nearby.

Dressmaking and Doncaster Dresses. Apply to Mrs. Florence Averill, phone 324-J, Tryon.—Adv. w's.

Be Modern! HAVE

HOT WATER

When You WANT
IT!

Almost the first requisite in modern comfort is an abundant supply of hot water . . . when you turn the faucet . . . instantly . . . day or night. This is yours with a modern AUTOMATIC ELECTRIC water heater! Starts itself, stops itself, and requires no attention. The cost of operation is extremely low . . . especially with our new low rates. Come in and let us explain the quick, economical, safe method of having hot water in your home . . . when you want it!
