

## Save Fingers for Defense!

When safety becomes second nature, miracles happen . . . . We know what to do; we need only to do more of it . . . . Fingers are needed for defense. Not even Uncle Sam can afford to let occupational injuries lay off 30,000 workers for 30 days!—Paul W. Kearney, in the current Rotarian magazine.

Fred Ayling of Syracuse, N. Y., is a guest of Lefty Flynn at Little Orchard. Mr. Ayling and Mr. Flynn were in the U. S. N. Aviation together in World War No. 1.

Gerald F. Stone of Asheville, Johns-Manville insulation service, is in Tryon on business.
