**NAVY DAY, MONDAY,  
 OCTOBER 27th**

Continued from Page One  
 on Monday and the Rev. Charles J. McGavern, as a Rotary club committee of One, has undertaken to get in touch with all Tryon ministers, white and colored, and to ask them to remember on next Sunday our ships and sailors in the prayers for the day. It is also hoped that every church in Polk County will observe the occasion in like manner.

For young men interested in enlisting in the naval service of our country, the opportunities are unusual. Living expenses and semi-monthly cash payments together equal or exceed in themselves the pay of an average business position, with practically no risk of unemployment in hard times, and at the same time, opportunities are afforded for training in special occupations, such as those of a radio operator, skilled aviation mechanic, an electrician, a Diesel engine expert, and many other well paid trades. Such training as a recruit may receive along these lines in his first year, is considered worth to him at least \$1,500.00 above his pay, although it is provided at absolutely no cost to him.

It is also worth considering that a sailor or "blue jacket" interested in sports can enjoy with free navy equipment baseball, football, boxing, swimming, wrestling, rowing, etc., by way of recreation and may have a chance to visit the far corners of the world.

Polk County is today represented by the following individuals in active service: (Although this list is not complete. If you know of others please notify this newspaper) —

Capt. R. F. Zogbaum.

John Owen Anderson.  
 Theodore Sydney Averill.  
 Thomas Edward Blackwell.
