B U Z Z !

Quirks in the News Concerning Tryon High School.

Well, Ole Buzz is back after a full weekend of fun and frolic. And Mr. Beach is back with us, too. We really missed him at school but we didn't forget him; I think there was a crowd that went over to see him every night . . . And speaking of people coming back, I see that Patricia has come to set all the boys' hearts aflutter! Better hold on to your boy friends, girls! . . . And Lock seems to have a profession already. He plays chauffeur to Mr. Beach. . .

And Mr. Caldwell gets around, too! He attended the Beta club meeting Monday night and there happen to be 14 girls and only 4 boys in this club. He's right good at jokes, though . . . The Romeo and Juliet of last year's Senior class were together for a short while this weekend. Too short a while, I betcha . . . We do have a lot in this school. Have you seen her new glasses? . . . What were Jane and Lock so droopy and gloomy about Friday night? Wonder? And they left the party early, too. . . . Earle was really going to town that night, if you know what I mean?
