

The Rutherford - Polk Health Department does not administer the whooping cough vaccine for several reasons, but we do heartily endorse its use and urge parents with young children to obtain it from their private physician. The danger of this disease is greatest in the infant and young child, so immunization should be performed as soon after eight months of age as possible!

Mr. and Mrs. Grover Turner have returned to Saluda for an indefinite stay. They are residing at the home of Mr. and Mrs. Floyd Holbert.

Miss Bessie Sonner is a patient at Duke hospital, and "Daddy Hart" is quite ill at Rutherfordon hospital.

I. L. Stacy butchered the biggest hog in Melvin Hill Tuesday
