## FALLS FROM MOVING CAR AND IS INJURED

Boyce Belcher, 30, whose home is Fairmont, S. C., was brought to St. Luke's hospital Sunday suffering a fractured pelvis, and cuts and bruises about the head. Belcher, it is said was riding in a car with another man and a woman and fell out of the car as it was descending the Saluda mountain near Tryon. Hospital attaches report his condition as good on Monday morning. No explanation was given as to why the door was opened as the car was on the steep grade. It is thought that probably one of the sharp curves threw open the door letting the man fall out.

## BRITISH WAR RELIEF

National Civil Defense authorities consider the activities of the British War Relief Society an integral part of the Civil Defense program. All volunteer workers in this organization become, therefore, Civilian Defense workers. I urge all workers to file Civilian Defense volunteer enrollment blanks obtainable at the Tryon Workrooms. This rule also applies to all knitters who do the work in their homes.
