A LETTER OF IMPORTANCE TO
THOSE WHO LOVE TO SEW!

Dear Mrs. X:

May we tell you of the way to More Comfort and Less Eye-Strain when you sew—
with I.E.S. lamps?

You'll feel fresher and probably sew better, if you have the light of a Certified I.E.S. lamp to make seeing easier. They are grand to read by too, as they must measure up to 54 different standards for better lighting and safe service.

You can make sure of this protection by looking for the I.E.S. badge of efficiency when you buy a lamp.
