## CURB REPORTER

Weather Wednesday: High 90, low 60, rain .03 . . . . There are only four pages today . . . Did you think to look for a thermos pitcher for St. Luke's hospital? . . . . Many people marvel at the efficiency of the Polk County Rationing Board. They work without salary; giving more than their leisure time to help win the war. Others have helped them by lending desks, chairs and some other office equipment. They need donations now for postage and other expenses. "Taint" fair for them to give their time and then pay the bills, too. . . . Keesler Field reports that Private Russell H. Durham son of Mr. and Mrs. Luther Durham of Landrum Route One, has enrolled as a student at the great army air technical school there and has started a 19-week intensive course to qualify as an airplane mechanic. . . . Dr. Mervin E. Oakes, former Green's Creek principal, now professor at Queens College, Flushing, N. Y., writes to Secretary Chas. West for copies of the Tryon Bird club list. Another request came from Mellen Martin at Chicago.

Wayne O'Niel, who underwent an operation recently at Leroy Private Sanatorium in New York, is recuperating at his home in Tryon.
