Mindful And Generous!

During the past six months the good people of Tryon have not been unmindful of St. Luke's hospital and have contributed generously to hospital needs. A few items have been solicited, but for the most part, the improved condition at the hospital has come unsolicited, through the generosity of friends. -

Room service has been made much more efficient because of added equipment. The superintendent let it be known that thermos pitchers were greatly needed in the different rooms. Very soon there had been received from interested friends, seven used thermos pitchers and two new ones. Also there was donated, for the ward, enamel water pitchers with trays.

One double-burner electric hot plate has been given. Another very useful gift, especially for summer weather, was the gift of two latticed screens to be placed in front of doors. (Space does not permit to give in detail the expressions of gratitude that came from patients who were made so much more comfortable because of this chance of increased ventilation due to these screens).

Four chairs in the private rooms have been re-upholstered and the bill has been paid by good friends of the hospital.

In the operating room, due to very generous gifts there have been added to the equipment a very much needed new suction machine of the latest model, a surgical retractor and fifty dollars worth of metal splints.

For the nurses' dining room which has recently been redecorat-
