COFFEE RATIONING

John L. Washburn, chairman Food and Clothing Committee of the Polk County Rationing Board has given the following information about COFFEE rationing that EVERYBODY should know:

1. Stamp No. 27 in the present War Ration Book will be used for the first coffee allowance, the five week period from Nov. 30, 1942 to January 3, 1943.

2. Only persons who are 15 years or older as shown on their War Ration Book are permitted to buy coffee. It is the duty of each retailer to detach the coffee stamp himself and to make sure that the age on each War Ration Book presented to him is 15 years or over.

3. Each family must report the number of pounds possessed on Nov. 28. This report should be made on a postal card properly signed and mailed to reach the Rationing Board on Dec. 10. Failure to make this report may result in the Board's refusal to issue any future ration books.

4. No consumer is permitted to buy green coffee. This does not apply to coffee roasted by the retailer before delivery to the consumer.

5. If a consumer finds it is a hardship, because of transportation, to buy in small quantities, he may apply to the Rationing Board for a certificate permitting the purchase of larger quantities by the removal of stamps from the War Ration Book.

Look over your stockings and other silk scraps today, discard all you can spare.—No matter how worn. The need is urgent. America wants them for manufacture of munitions. TNT!
