

COMMUNICATIONS

Dear Mr. Vining:

Just a note to let you know of my change in address. I am no longer a part of the 10th Armored Division.

We have had a slight reorganization of the tenth armored and in this change I am now with the 777th Tank Bn.

I can not give you the reason of this change but I am sure it is for the best. Some while ago I put on a demonstration for President Roosevelt, General Marshall, General Devers and Anthony Eden of London, England. This demonstration was the firing of the mortar from ranges nine hundred to two thousand yards. During the firing my section made ninety percent out of a possible hundred. I am now an instructor of this warfare at the Tenth Armored Gunnery School.

We are continuing our training under the Tenth Armored Division schedule until further notice.

I have been receiving your little paper right along and I am so glad because it makes me feel so close to home. A surely wish I could be there today because I know those mountains must be beautiful at this time of the year. I am expecting to be there some time in the near future, until then, I remain,

Yours truly,

Walter Newman, 34255016,
Hq. Co. 777th Tank Bn, Apo. No.
260, Camp Gordon, Ga.

HOUSE FOR RENT: Three room apartment near Tryon high school; one five-room house at Lynn; one four room and one three room house for rent. C. O. STORY, Lynn.—Adv. 8,15,22,29p.

The Government Asks You
To Help In A

VOLUNTARY CONSERVATION PROGRAM

"The War Production Board has proclaimed that maximum war production requires the greatest possible conservation of manpower, transportation, fuel, equipment and critical materials such as copper, steel, tungsten and many others—much greater than has been heretofore accomplished. It believes that this greater conservation can be accomplished by the voluntary co-operation of all citizens of our country in the effort."

YOU CAN HELP SPEED
VICTORY BY SAVING

- FUEL
- MAN-POWER
- VITAL MATERIALS
- TRANSPORTATION

Even though abundant electricity is as close as your nearest outlet, we are asked to use it wisely, in the interest of conservation. Any reduction you can safely make in its use will reduce the amount of fuel needed to make it.

"Electricity is Vital in War
... Don't Waste It!"
