The Polk County Agricultural Conservation Association has in storage now, a large supply of Austrian winter peas, to be furnished to farmers of Polk County as a grant of aid. As you know in the past years we have been greatly handicapped, because we did not get these peas in time to seed them, for them to get a good growth before cold weather came. The County Committee urges every one who would like to get these peas, to get them just as early as you can, so that you can seed them early. All applicants who would like to get peas, should call at the AAA office in Columbus, where you can get the necessary papers.

*Extra copies of The Bulletin on sale at the office for 5c each.*
