CURB REPORTER

Weather Wednesday: High 37, low 26. That isn't such bad weather except for those people who ride an early morning bus and have no place to warm their feet while waiting. Maybe in post-war planning there could be a municipal building of some kind open all night that would serve as bus station, general waiting room, police station, information bureau, fire department, restaurant, etc. Enough things to make it pay to keep it going . . . 25 high was the warmest it got in Asheville Wednesday and that is colder than our low of 26. So if you think it cold here, remember it was 12 degrees warmer than Asheville . . . "Am I my brother's keeper?" said . . . That's the spirit that brings . . . and general hardships. And until we adopt as a part of our every day living the spirit of the Golden Rule there will be wars and hardships. We must look on our enemies here at home as possible friends. We must try our salesmanship on them and win them to a spirit of better fellowship for our sakes and for all concerned . . . Thanks to a number of business and professional men who appreciated the good work of the Tryon football team this year; the squad will enjoy a banquet tonight at Oak Hall hotel at 8 o'clock. Capt. Ellis Kuykendall, has already passed his pre-induction physical examination.
