TRYON, N. C. FRIDAY, JANUARY 19, 1945

CURB REPORTER

The Echo has reached Tryon. It is Volume 1, No. 1, published at High Point by and for the employees of Adams-Millis Corp. Reporters at Tryon plant No. 8, are Misses Mildred Rippey and Edna Lee McKaig. The paper is attractively printed with interesting news and useful information as well as pictures of some employees in the armed forces. Tryon pictures include Pfc. Hoyt Staton, Pfc. G. L. Pace, Jr., Cpl. Hugh B. Tessener, Wm. M. Powell, MM1c, Pvt. Horace M. Lowe, and Pvt. Hugh Howard. The cover picture shows President J. E. Millis and General Superintendent Harry G. Bell on the platform at the big Soldiers of Production rally held recently. News items contained local births, an account of the Christmas party at Oak Hall, the lower number of accidents at the Tryon plant. Our best wishes to The Echo. There is a need for it, and it should grow in size and usefulness. The Tryon plant alone can furnish enough news to fill the paper in its present size. Adams-Millis men here have taken an active part in community affairs. Superintendent George W. Comer has been a leader in church affairs, an executive of the Democratic party, a member of the Rotary club, and prominent in other activities. W. E. Spane has been Master of the

Sunday, 17 Dec. 1944.

Dear Dr. Taylor:

I received your picture about two weeks ago but I am just now finding time to answer it. I hope you will forgive me for not writing sooner, but sometimes there are circumstances that won't permit me to meet all my obligations. I was both surprised and happy to receive this bit of news from you. It is good to hear from the fellows I once palled around with and to know they are safe. A long time has passed since the happy days at the Boys' club. I imagine this has broken up; due to the war. I truly hope it will continue its good work after the war. All cities and towns should encourage organizations such as this. It would cut down a great percentage of juvenile delinquency.

I will give you briefly a few of my experiences. I was in on the initial invasion of Leyte Gulf in the Philippine Islands. For the first few days nothing of any importance happened. Only the bombardment of shore installations. It was one continuous roar day and night. But then the Japanese air force began to make itself known. They threw quite a bit at us but we threw a little more back. About the second day a "Betty" (twin engine medium bomber), made a run on us and
