Failure of commercial motor vehicle operators to comply with regulations requiring periodic tire inspections will adversely affect the claims of these operators for new tires, the District Office of Defense Transportation at Charlotte, announced today.

The ODT warned truck, bus and taxicab operators that General Order ODT 21A requires all commercial motor vehicle operators to have their tires checked after each 5,000 miles of operation, or after every six months of operation if operated less than 5,000 miles.

Office of Price Administration action lifting this requirement for passenger car tires in no way affects compliance of commercial motor vehicle operators with ODT tire inspection requirements, it was pointed out. Inspections may be made by any agency designated by OPA.

Cpl. T. T. Edwards writes from England that he had the pleasure of talking recently over the phone to his father, Seaman Tench Edwards, of the Merchant Marines, when he was in port in Wales.

Mrs. Merzie Foster of Columbus was admitted to St. Luke's hospital Monday.
