KANSAS WOMEN

Following the signing of the treaty with the Delaware and Shawnee Indians in 1854, settlers poured into Kansas. Women and children accompanied the men on steamboats, on horseback, in prairie schooners and wagons. They went to make it a home territory and courageously stayed to make permanent homes, despite the bloody years of border warfare over the slavery issue. They were strong, purposeful women who foresaw the opportunity for prosperity and good homes for future generations. Kansas has a monument to them on the capital grounds at Topeka. Their grandsons battle for an unspoiled future for all the Nation and War Bond funds equip them.
