Your Electric Servant

Thanks for Your Patience!

For years we have tried to give the kind of service that makes friends out of acquaintances and if the difficulties of serving you day after day have taught us anything, it is that we have a world of patient, friendly, good-natured customers!

Your co-operation really helps these days, with 1270 of our employees in the armed forces, with equipment wearing out and parts no longer available, and with the necessity for saving rubber, gasoline and metal.

Thanks again—we are proud to serve you!
