an

INSURANCE ADVISORY SERVICE

This is not a Highfalutin Title for a routine Insurance Agency. This Service is positively unorthodox.

Unless you are much smarter than The Average Insurance Buyer you have no Planned Property Insurance Program. You have not analyzed your insurable values nor adjusted them as conditions warrant. You have made no attempt to keep abreast of improved and liberalized insurance contracts. You have purchased policies rather haphazardly, renewed them when due, paid the premiums and remained puzzled.

Having spent all of my business life as a student of, and an active participant in the handling and placing of insurance coverages I believe I am competent to assist you. In the true Tryon Spirit, "Your Problems Become My Problems," without OBLIGATION OR SOLICITATION!
