ROBOT PLANE COMING TO TRYON FRIDAY

Those terrible robot planes that struck England and almost won the war for the Germans and terrified the Allies, are being made in America now. One of them will be brought to Tryon Friday at 1 p. m., at Harmon Field.

The plane will be in charge of an army lieutenant and about half a dozen enlisted men who will come to Tryon this afternoon to make preparations for the event. The McElhenny Public Address system of Spartanburg will be installed to amplify the program so the large crowd will know what is being done. The plane will rise and fly over the field without anybody in it. Operators on the ground will direct the plane by radio and make it work in the air as if a pilot was up there directing it.

Coach C. M. Eargle is having the football goal posts taken down and the field cleared for the occasion. Chairman Chas. J. Lynch of the Harmon Field Commission and Chairman Julian B. Hester of the War Finance Committee are in charge of the arrangements. The event is being staged in the interest of the campaign for Victory "E" War Bonds.

TWO HOUSES BOUGHT

Mr. and Mrs. Horace Porter have bought the J. G. Smith house near the Home Ice Plant off Hendersonville road. And Mr. and Mrs. Lanon Moss have bought the Horace Porter house. Sales through G. Harrison Bridgeman.
