

# Traffic Jam

## IN YOUR HOME?

Do you know how annoying it is to find yourself all hot and bothered at an intersection, with horns blowing and roads choked with automobiles unable to proceed to their destination.

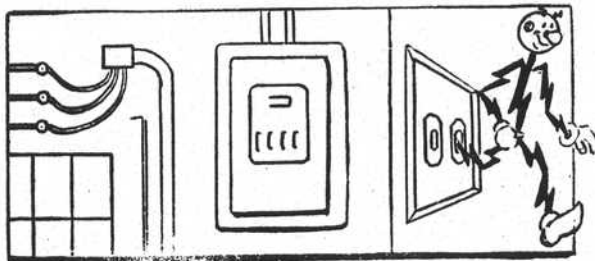

The wiring system in your home is an *unseen* highway system along which your entire family receives comfort, convenience, safety, and aids to health. If this highway is inadequate, electric traffic slows down, lights do not burn as brightly, bread takes longer to toast, appliances take longer to heat, fuses often blow out.

### Adequate Wiring Demands:

**1**  
A 3-WIRE  
ELECTRIC  
SERVICE

**2**  
PLENTRY  
OF  
CIRCUITS

**3**  
LOTS OF  
OUTLETS  
AND CIRCUITS

**DUKE POWER COMPANY**

*Serving the Piedmont Carolinas.*
