Some one might knock about having the ball games, but if you have, or have had young people in your home, they naturally want recreation, and if it's not available in their community it is somewhere else. So go along with the children and enjoy it.

There is being, or will be, much effort put forth for the general health of the children in the counties of North Carolina, and we hope all will become, if not already, much interested.

—Mrs. Berlin White.
