TRYON, N. C., WEDNESDAY, FEB. 19TH, 1947

Weather Tuesday: High 74, low 26. Speaking of weather, Tryonites will be interested to know that all over America the news is spreading that the nearest to an ideal climate is found in Western North Carolina. S. Vernon Smith and Kenneth Sanders relatives from the Chicago area told us several days ago that the Chicago weatherman had retired and was moving to Western North Carolina because he had learned we had the best climate in the country. Now Marion Brock at Neenah, Wisconsin, sends us a United Press clipping from one of the Wisconsin newspapers giving the same news. The clipping says: "Owen T. Law, 64, gave his selection at a farewell banquet announcing his retirement. A forecaster, with 38 years service in the U. S. Weather Bureau, he studied reports from all over the nation and learned that Western North Carolina has the best weather conditions. That is why he wants to live there." . . . The directors of the Tryon Chamber of Commerce have been making many long range plans for the betterment of the community and county. Representative W. H. McDonald was asked to use his influence to have the legislature re-

## Rotary Governor Speaks To Tryon Kiwanis

Rotary Governor John H. Brookshire of Spartanburg was the guest speaker at the Tryon Kiwanis Club Tuesday at 1 p. m., at Oak Hall. K. A. Bowen had charge of the program.

Governor Brookshire gave an outline of the ideals and services of most civic clubs including Kiwanis and Rotary. He praised Tryon Kiwanians for their support of the wheel chair fund, and hospital beds, crutches, etc.; Boy Scouts, 4-H Club and other community services that carry out the Kiwanis motto: "We Build". He told of the value of fellowship and friendship of business men meeting together to help solve community and national problems, and to contribute their part toward world peace and world progress. He also gave his own experiences of the good work done by Rotary Clubs for the crippled, near sighted and less fortunate. He said the kind of town Tryon is today is in some part due to the activities of the Kiwanis Club and that the future development of the community and section will be measured by the leadership of the Kiwanis, Rotary and similar service clubs.

Guests at the meeting included Virgil St. Cloud of Raleigh Kiwanis Club; Franklin L. Campbell of Penn Yan, New York Club; Dr. Ralph Di Cosola and R. B. White of Tryon.

Total capacity of the pulp and paper plants of North Carolina in 1941 was 1,055 tons of pulp in 24 hours.
