Weather Tuesday: High 77, low 45, rain .02 . . . Well, the Tryon election pot is beginning to boil. First time in years that we have had three candidates for mayor. It's a healthy sign of renewed interest in civic affairs. A number of times the ones in office would offer for re-election without any opposition. There should be no embarrassment at being defeated. Often the one in minority does the most good for his community by bringing to light needed changes. He sows seeds of progress that will bear fruit later . . . Miss Mary Frances Lankford was honored Sunday at the Congregational Sunday school for 11 years regular attendance . . . Over 70,000 people have been convicted of driving drunk in North Carolina, 500 of them were convicted between Jan. 31 and Feb. 14 . . . The fees at the Country Club new all-weather tennis court are 75c per day, and \$1 on week-ends and holidays . . . It will be an inspiration to the 4-H Club boys. The show and judging starts at 1:30. The auction sale will begin around 2:30. This is the first sale of its kind ever held in Polk County and if we don't make a success of it such fine cattle will be taken elsewhere next year . . . A number of friends of St. Luke's hospital

DR. PALMER AT KIWANIS

Dr. Cary T. DuRant had charge of the Tryon Kiwanis Club program Tuesday and presented Dr. M. C. Palmer, who gave a brief outline of some of the interesting experiences he had in the early days when he first came to Tryon in August 1910. He reviewed the hotels as they were then; the development of the hospital in which he played a large part in organizing; a street scene of 1910 showed only six brick buildings; roads were poor; communications terrible; people travelled about at night with tin candle lanterns; only about two automobiles here; water system was inadequate but present system one of the finest in the nation; practice of medicine was difficult due to no hospital and poor communications; doctors often had to spend the night at a patient's house because he couldn't
