TRYON, N. C., WEDNESDAY, OCT. 1ST, 1947

Weather Tuesday: High 72, low 48 . . . . The World Series is claiming the attention of millions of Americans and putting in second place the United Nations Assembly, food shortages and the troubles in European countries. The New York Yankees defeated the Brooklyn Dodgers 5-3 before 73,565 people, the largest attendance at any World Series, while all over the nation and in many other parts of the world little clusters of people were gathered around radios to hear the play by play results. The Russians should learn to play baseball. Many foreigners make good baseball players and good American citizens when they come over here. Just look at the names of famous players . . . . Mrs. Rufus Zogbaum, who has been keeping up with the United Nations conferences addressed an important gathering recently and told her audience about the importance of everybody getting interested in world affairs. We all help to form the American foreign policy by our attitudes . . . . A 310-unit housing project for Negroes begins this week in Spartanburg . . . . \$50,000 fire destroys Cherry Hill

## Dr. C. E. Scarborough Makes Address At Kiwanis Club

Dr. N. G. Bethea had charge of the Tryon Kiwanis Club program Tuesday at Oak Hall and introduced as his guest speaker Dr. Claude E. Scarborough, pastor of the Tryon First Baptist Church. Dr. Scarborough based his talk on two nursery rhymes, "Little Boy Blue" and "Jack and Jill" which teach that all of us have responsibilities and jobs to do; and the need of cooperation by everyone to make a successful community and nation.

He said our failure to do our jobs brings waste and suffering. He said there is nothing worse than the bad citizenship of good people. Our nation was founded by spiritual people in high places. Democracy requires the highest type of citizenship. We must make democracy grow by education and the proper influences. We must throw around our young people those things that help them to grow in the ways of democracy. We must put in our community everything helpful and move out everything that would be a stumbling block. No person falls without someone else falling, too. (Like Jack and Jill). We all need one another's help in making the kind of community we want.

A. L. Covington, a former Kiwanian joined the Tryon Club. Joe Reid of the Tryon A&P was a guest of Douglas Blackwell.

A nominating committee was appointed consisting of R. L. Dick C. P. Rogers and Dr. C. W. McCall.

Dr. N. G. Bethea resigned as a member on account of leaving the community within a few weeks.
