Questions About School Work

We would like to consider the wishes of parents with regard to the selection of teachers for first grade pupils and other pupils, but it is impossible to do so. We find it necessary to disregard all such requests. It is not difficult to see the problems we create by following any other policy. We believe one child deserves the same consideration as another; but we do not think such choices represent the advantages that parents think are involved, at least, not to the extent sometimes imagined.

If there are other questions parents wish to ask, we will be glad for them to come to the school office or to call No. 84.—School Reporter.
