COMMUNICATIONS

Korea, May 10, 1951.

Dear Home Friendly Club:

I was very glad to get your May letter. It's good to get mail over here. We are just below the big reservoir in Central Korea. We were up past it but pulled back as we were stretched out in front too far after the outfits on our flanks were pushed back in the big Chinese offensive but are holding our own and preparing to advance again in a few days. I am now with the Grench Bn., that is in Korea.

I seldom see my outfit as I'm with a forward observation party and we stay up with the line companies all the time, so therefore get lots of excitement and thrills if you could call it that. But we have taken our share of Gooks since we've been here. They sure paid for the ground they've taken and are losing it back to us.

Of course we've lost lots of bud-

dies here. But I guess most of us guys that came over at the start will be home before too much longer. I sure hope so. We're getting lots of replacements now, all new draftees and E.R.'s and part of the R.A. men have started home. So I shouldn't be too far behind them as we all came over last July. So I guess it's time we let some one else take it awhile, what's left of us.

Boy, this is my favorite season to be home, although it would have been nice last winter when it was 20 below. Well, news is scarce so please excuse the writing as the pen is North Korean and is not a good one. I'd better close for now. Hoping to hear from you soon.

Robert Phillips.

Soldier Phillips sent along some small pictures which are being mounted by George Vance for display in the Western Union window.
