ENTERED AS SECOND CLASS MATTER AUGUST 20, 1928, AT THE POSTOFFICE
AT TRYON, N. C. UNDER THE ACT OF CONGRESS, MARCH 3, 1879

THE TRYON DAILY BULLETIN

The World's Smallest DAILY Newspaper.

Seth M. Vining, Editor

Vol. 24—No. 190 TRYON, N. C.. WEDNESDAY, OCT. 31ST, 1951

Weather Tuesday: High 62, low 51, rain .07, Rel. Hum. 82 . . . If it should rain tonight the Tryon Hallowe'en Carnival will be held at the school gym. Supper will be served at the school cafeteria for those who desire it, 75c and \$1. . . . The sacred meaning of Hallowe'en is given elsewhere in this issue by the Rev. J. B. Sill . . . Funeral services will be held on Thursday at 3 p. m. at McFarland Funeral Home for Mrs. Sara M. Rushing, who was chief telephone operator in Tryon for nearly 25 years. She belonged to this community. She operated when few were called by number; and her knowledge of the community and the affairs of its people was often a godsend in time of trouble. Her kindness and many courtesies to everyone in general whether friend or stranger won the appreciation of thousands. Many remembered her at Christmas and other special occasions. But the community as a whole will always be indebted to her for helping to maintain the friendly spirit of Tryon

The American Music Conference recently revealed that in a survey of 200 colleges and universities, officials of 196 declared musically trained students to be far superior to all others.

Hatch Mill One of Finest

The Hatch Mill at Columbus is one of the most modern woolen mills built within the past 50 years according to Marion Beacham, superintendent of the Excelsior Mills of Union, S. C., who was the guest speaker at the Tryon Kiwanis Club Tuesday. John Wardlaw had charge of the program.

Mr. Beacham, a graduate of Wofford College, and a textile engineer, rose in ranks with Deering Milliken Co. and was superintendent of the mill at Rutherfordton before going to Union. He said Mr. Stroud and other officials of Deering Milliken made a thorough study of woolen mills throughout the nation in making plans for the Hatch Mill which they wanted to be the best of its kind. As soon as some details are worked out an open house will be held and the public invited to see the new plant which is now in full operation making cloth for the U. S. Navy.

Within the past year since the mill as started the price of wool has doubled and dropped back again a number of times. This has played havoc with the industry, said the speaker. Consequently the woolen mills are using a great deal of the new synthetic fibres produced by DuPont and others, fabrics that look and feel like wool, and yet are washable, durable and non-shrinkable.

The Hatch Mill at Columbus was designed to produce fancy woolen cloth for ladies clothing. It has the latest equipment that is so flexible in order to make material for changing styles. It is a mill anyone could be proud of.

County Agent Paul Culberson spoke on the importance of the
