WANT FLUORIDATION

At a recent meeting of the Iso-therm Dental Society of which Polk County dentists are members, the following resolution was adopted:

"Be it resolved, that in view of continuing proof of the effectiveness and safety of fluoridation of community waters in combatting dental decay, the Iso-therm Dental Society hereby endorses this process. We hereby pledge our efforts in support of the fluoridation of water supplies, up to the recommended level, for the communities within our society's territory as soon as it is possible and feasible to do so."

COPY EARLY

In order for The Bulletin to go to press every day at noon it is necessary to get advertisements and promotional material in the day before and save the mornings for last minute, perishable news and important announcements that can't wait. In that way we can give everyone better cooperation.
