TELEPHONE No. 203

GINGER ANN CHATS

A meeting of the home economics teachers of Transylvania, Henderson and Polk Counties was held recently at Lake Sega, Brevard. The meeting, combined with a covered dish supper featured Miss Kathryn Woodard; assistant State lunch room supervisor, who gave a very interesting talk about nutrition.

The teachers from the three counties meet twice each month—usually at Hendersonville High School. Problems and teaching methods are discussed and new ideas exchanged. The teachers take turns being responsible for planning and presenting interesting and worthwhile programs.

“Rod, Gun & ‘Seed’ ”

BY WOOD'S RIDER.

IT SOUNDED LIKE there was a convention of crows in the Preston building for a few minutes Saturday morning. “Doc” was trying out a new crow call. And he's such an expert caller that, according to the owner of a nearby house, a

stuffed owl the house-owner has on his mantle tried to hide in the chimney.

“That's nothing,” another reader of this column declared when he heard of the incident. “Doctor Preston was calling crows out back of my house one day, and danged if some ‘corn’ I had in a fruit jar sitting on the kitchen sink didn't burst out of the jar and run down the drain!”

PIANO WANTED: Want to buy small piano. If you have one to sell please notify K. A. Bowen.—Advertisement.
