COMMUNICATIONS

Continued from Page One

on, TV reception from either Asheville or Greenville would be adversely affected and very probably totally blacked out in some sectors. There is no such barrier between Tryon, Columbus and Spartanburg consequently TV reception from that city would be direct and unhindered.

The two outlets assigned to Columbia will not materially benefit this community since Tryon is outside of the effective reception range.

I believe that Spartanburg would welcome our support of their effort to obtain a VHF TV outlet and, aside from the fact that Spartanburg is our nearest large shopping center, the additional benefits to this community which would derive from a VHF TV outlet in Spartanburg affording as it would better TV reception, diversified programs and a nearby outlet for local advertising, church and educational programs, more than warrant our support of our neighbor to the South.

G. R. Bostain.
