FLASH FROM VIRGINIA: “The life of a game warden isn't a rosy one, as many seem to think. Long hours and little sleep is the rule with them as is shown by the Warden Activities Report for December.

“During the 31 days of December the Commission's 136 wardens, conservation officers and warden supervisors travelled 285,000 miles, making a total of 422 arrests of game, fish and DOG (our caps) violators, and checking 25,206 DOG (again, our caps), fishing and hunting licenses.”

COULD BE that the licensing of hunting dogs and regulating their use in hunting is partly responsible for Virgi-

nia's outstanding upping of their deer kill in its mountain counties from near zero just a few years ago to three thousand four hundred and thirteen last fall. Think it over!
