

Golden Guernsey Milk

When you buy milk under the "Golden Guernsey" seal or trade name you are getting a product that is the result of years of research.

WHAT IS

GOLDEN GUERNSEY MILK?

1. It is milk produced only by selected farms.
2. It comes from selected registered Guernsey Cows.
3. It meets requirements of Local and State health authorities.
4. It is supervised in production at the farm by a representative of Golden Guernsey, Incorporated, a non-profit agricultural organization.

As a result of continued breeding and testing, the Guernsey Cow has the unique ability to produce this "Golden Colored" milk that has consistently won highest awards at National Dairy Shows for quality and flavor.

Golden Guernsey Milk carries a good deep cream line, but also

Richness Below the Cream Line

which is important because here is found those vital elements the Chemist calls Minerals, Proteins and Milk Sugar. Proteins that feed the blood and muscles, milk sugar that furnish nourishment and energy. Minerals, Golden Guernsey Milk contains more of these vital elements because the farms that produce it select and feed their cows scientifically for high production and year round good flavor so essential to proper nutrition of man. Drink more of this milk for a longer and happier life.

Eskdale Farms, Tryon, N. C., owned by Mr. and Mrs. John R. Kimberly and managed by Gaden O. Corpening, is the only farm in Polk County that meets the high standards for the production of this premium milk. It is bottled and distributed exclusively by Butler's Dairy of Tryon. Visitors are always welcome at the farm to see this premium milk being produced.
