CURB REPORTER

Weather Tuesday: High 67, low 40, rain 2.85, Rel. Hum. 56 . . . New cold wave has hit the Midwest, coldest in Minnesota. In renewing her subscription to The Bulletin the other day, Mrs. M. H. Hilyar Jr. (Alice Edwards) of Deerwood, Minn., said, 'We still have plenty of snow and it was 15 degrees below zero this morning. We enjoy The Bulletin. So much like a letter from home.' . . . Mrs. Barrett Rogers and Craig Thomas attended the meeting in Spartanburg to select programs for next season's Civic Music Association and report six programs this coming season instead of the usual four because so many more people joined. Over 250 from Tryon area alone, and selling the large Memorial Auditorium to capacity. The programs booked include Indianapolis Symphony, Fred Waring's Musical Production, Ballet Theatre, Jerome Hines, Vienna Choir Boys, The Operatic Sextet. The most successful season is predicted. Those who bought tickets will also be privileged to attend the last performance of this season and bring any out of town guests.

The Tryon Daily Bulletin,

In this week's stack of Bulletins I was more than a little interested to note that you have "thrown our usual financial caution overboard and in spite of having sent a newsletter only a week ago, we have mailed this paper to 52 boys overseas, and 75 in this country. What I am getting at is there an extra of this that I could have? I have long wanted a copy of one of those much publicized and talked about newsletters. I would like to see what is being done for the Polk County boys as well as to show off just a bit.

I read the Bulletin every time it arrives and enjoy it very much, especially the *Columbus News*, of which there is never enough. Often I wish there were more details of people I know who are in the news. Would like to see one thing added to the news—a feature story of Polk Folk. One every day possibly a Columbus personality on Thursday with the Columbus news, etc. So many persons contribute so much only to have the first bit of it come out in their own obituary. I am thinking of those like Eunice Cloud, who has done a great deal more for the community than teach so many girls and boys their ABC's; and Mrs. Edwin Constance who did an excellent job of being both mother and father for so many years, as well as the natural news getters like Ernest Gibbs.

Canada isn't bad but every American of the U. S. should live in another country a short time
