Many of the entries included horses that have shown at the Tryon Horse Show . . . The Selective Service Board office in Tryon will be closed Thursday and Friday of this week. National officials state that 19-year old men may have to be drafted in order to fill the required quota. 47,000 men will be called in October . . . Anthony Eden, 55, British foreign secretary, will marry Miss Clarisso Spencer-Churchill, niece of Prime Minister Winston Churchill soon, according to official announcement.

DOG NEWS

General and Mrs. E. P. King of Saluda are among the many dog lovers in this area. When asked what kind of dogs he had, the general replied, "Rescue Dogs." They are stray dogs that Mrs. King had rescued in Georgia. But the Kings love them as much as if they had distinguished ancestors. They are named "Butch" and "Chico". Chico is thought to be of Welsh Pembroke descent.

One of the most popular dogs in Tryon for many years was "Dan", a bird dog owned by Ernest Kerhulas. He was often seen on Trade Street carrying something in his mouth either going home or to the Tryon Cafe. The dog now that has the run of the street is "Pedro", a mixed bull dog, owned by Rufus Durham. He makes regular visits to the markets and cafes where friends give him a bone or some other food.

"Beebee", the friendly red Cocker Spaniel of the Woodrow Hagues is almost human in her reactions. She is very sensitive to scolding; obeys immediately. She likes to play ball and will bring her ball to visitors as well as to members of the family. She catches it on first bounce.
