## No Anaesthesia, Please

Dr. George S. Vosburgh spoke to the Kiwanis Club Tuesday on "The Evolution of Medicine." Dr. Vosburgh gave a brief sketch of medicine and the progress that it has made since beginning of man.

The speaker pointed out the tremendous strides that has been made in medicine during the past century. He told of the first medical schools in this country and of the difficulty they had in securing bodies which often led to grave robbing.

Dr. Vosburgh told of the progress that had been made in bacteriology since Louis Pasteur proved that certain bacteria caused diseases. He also gave the history of anesthesia from the time the doctors placed a wooden bowl upon a patient's head and hit it until the patient was unconscious to the present use of ether.

Albert Simpson showed some slides of the Girl Scout Day Camp on Lake Lanier taken by Miss Jane Brown.

Guests of the club were Henry T. Boswell Washington, D. C.; J. Frank Gallimore, Tryon; Rev. W. S. Stonev, Anniston, Ala., and Tom Costa, Tryon.
