Buys on Retail Market

Higher chick placements in the specialized broiler-producing areas over the past few months promise excellent supplies of broilers and fryers for retail markets in March, Paul E. Culberson, Polk County Farm Agent said this week.

Beef also has been added to the March plentiful foods list, along with frozen fish fillets, turkeys, raisins, honey, dry lima beans and pea beans, dairy products, eggs, peanut butter, edible fats and oils, and processed citrus products.

Cabbage, from a winter crop that is about 17 per cent larger than last year, is abundant and one of the better fresh vegetable buys in the Southeast, according to Mr. Culberson, who said that low wholesale and shipping point prices are being reflected in the reasonable retail prices that are making cabbage a budget buy on current markets.

Celery supplies also are abundant, and for fresh fruits, oranges and grapefruit since adequate supplies of both fruits will be available during March.
